When you find that the dollhouse building playset became dirty after use, we suggest that the plastic parts can be washed with water and dried in a dry environment to avoid mildew, the cardboard and dolls are recommended to be wiped with a clean cloth.

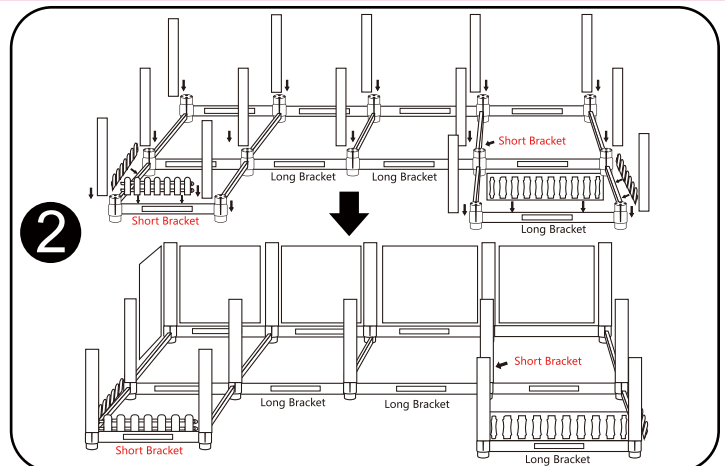

DOLLHOUSE BUILDING PLAYSET INTRODUCTION

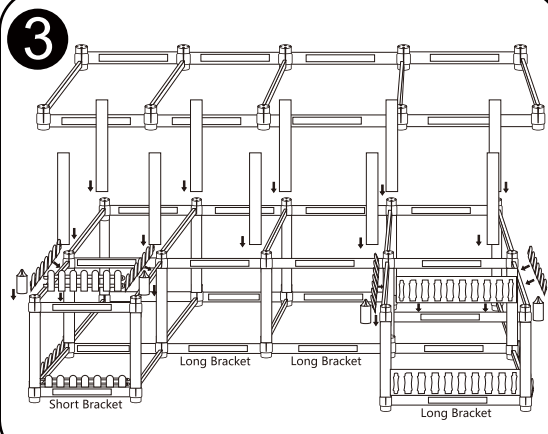

HOW TO INSTALL THE DOLLHOUSE

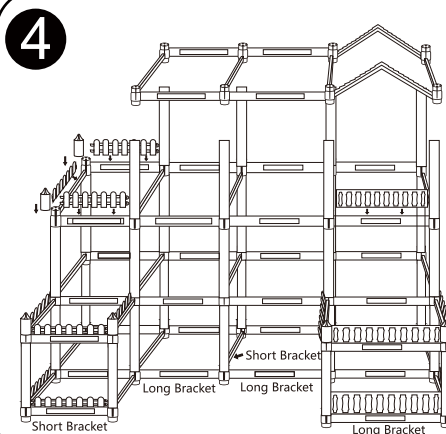

1. First, we assemble the bottom with 12 short brackets, 7 long brackets and 14 connectors. Please pay attention to the picture to distinguish the position of the long bracket and the short bracket.

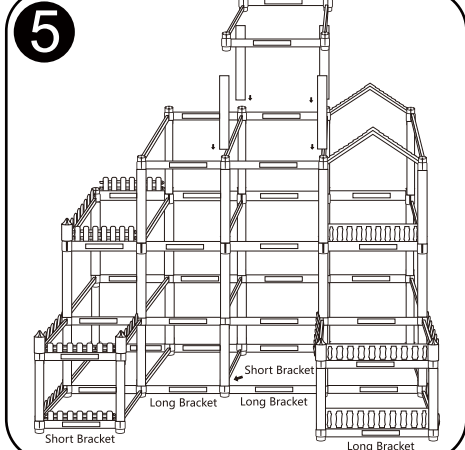

2. Insert the support rods on the connectors, insert the back and side background cards.

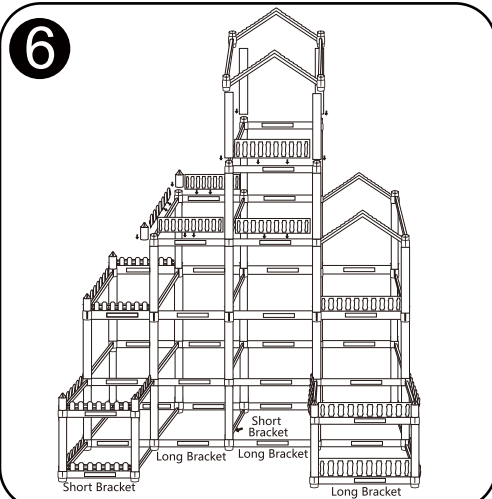

3. Repeat the above steps to assemble the second floor, and assemble the background cards, the fences and the white pillars next to the fences.

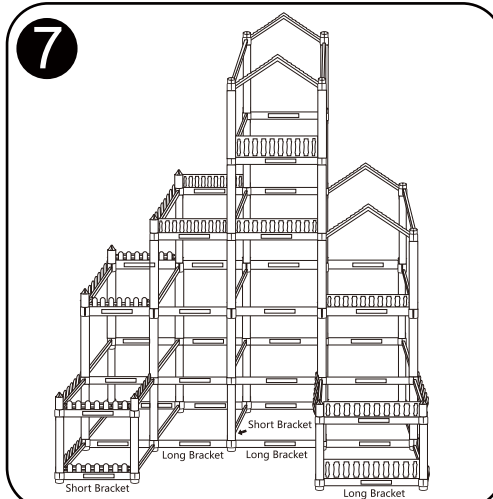

4. Assemble the third floor and the rightmost eave according to the picture. Please insert the background cards and the roof card.

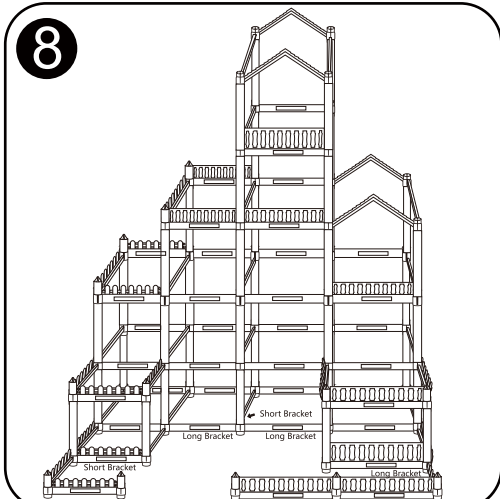

5. Assemble the fourth floor with 4 support rods, 4 connectors, 2 short brackets and 2 long brackets.

6. Assemble the fifth floor and complete the top seal.

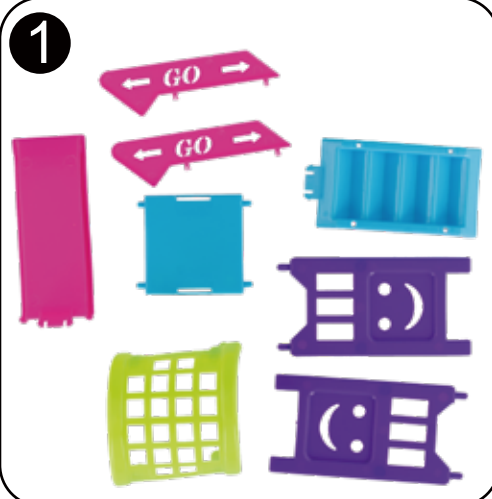

7. Place the floor cards on the frame of each floor, and place the decorations as you like.

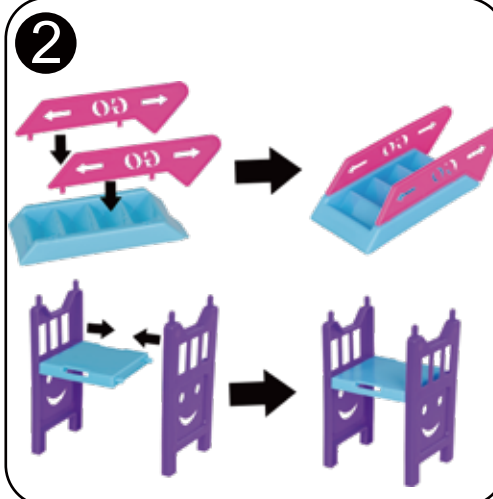

8. As a final step, add the fence around the bottom layer (first connect the brackets with the connectors, and then insert the fences and white pillars). The dollhouse is done!

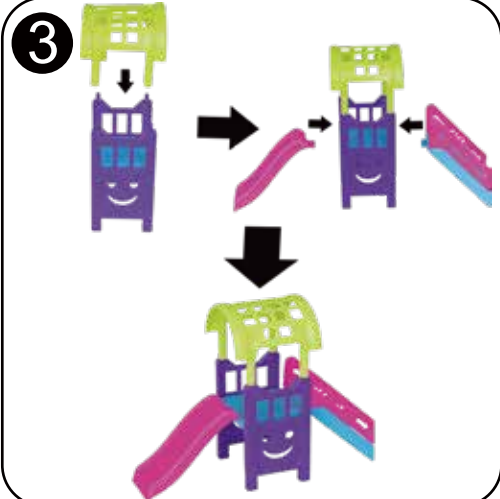

HOW TO INSTALL THE COLORFUL SLIDE

1. Take out the accessories, as shown above.

2. Connect 2 purple rectangular panels with blue square panels; place pink handrails on the edge of the blue ladder.

3. The green ceiling is mounted on the top of the purple square panel junction, and finally the pink slide and ladder are built together with the purple shelf.
